

IDAHO ACADEMY OF SCIENCE

a spectrum of disciplines

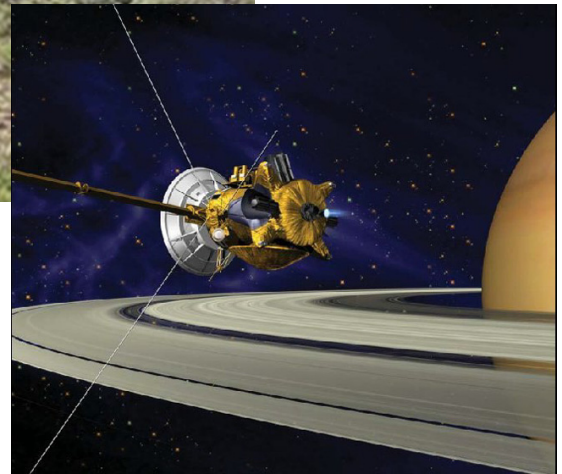

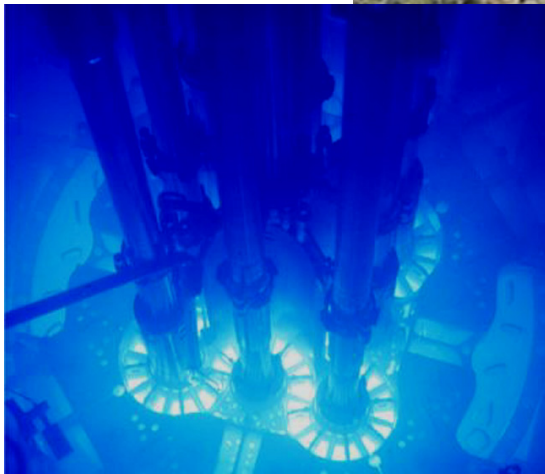

49TH ANNUAL MEETING AND SYMPOSIUM

April 19 - 21 2007

Idaho National Laboratory / University Place
Idaho Falls, Idaho

ENERGY FOR THE FUTURE: HUMAN & ECOLOGICAL CONSIDERATIONS

Program Highlights

Thursday, April 19

Ink & Blood Exhibit at the Museum of Idaho. Public Lecture by Dr. Scott Woodward:
Reconstructing the Pieces of the Dead Sea Scrolls Using Molecular Genetics.

Friday, April 20

Luncheon Talks: *INL Next-Gen Reactor Programs, Idaho Cleanup Project, and Space Nuclear Energy.*

Evening Keynote Address: Dr. Susan Capalbo, Director, Big Sky Carbon Sequestration Partnership: *Climate Change and the Role of Technology and Policy.*

Saturday, April 21

Plenary lecture and panel discussion on *Ecology and Human Health.*

We strongly encourage you to attend and/or submit papers for our technical sessions. **The deadline for submissions is March 28, 2007.** We are open to research findings in ALL scientific, engineering, and health disciplines ... from students, educators, and professional scientists. (Student presenters receive free Registration.) Registration and Abstract Submission Forms, and information on conference fees, deadlines, etc. are posted on our meeting web pages at

www.isu.edu/ias

We are also planning a Proceedings document. These *optional* papers will be peer reviewed and published separately, as an issue of the *Journal of the Idaho Academy of Science.*
