**“Effective Technical
Presentations”**

Friday October 24, 2008

Room 225 REND, ISU Pocatello Campus

1:00 – 1:50 p.m.

ABSTRACT:

What are the keys to a successful presentation? This class will help you develop presentations that are crisp, clear, and appropriate to your audience. Topics include tips on presentation organization, motivation, formats, fonts and suggestions for the most important part of the presentation - you! Find out how to avoid the "podium death grip" and "laser pointer madness" and keep your audience awake and involved!
