

## President's Sustainability Symposium

### Transition to Sustainable Energy Systems

October 22-23, 2009  
Idaho Falls, ID

### Third Annual President's Sustainability Symposium 2009 (PSS'09)

A focused discussion of issues associated with generation, transmission and utilization of electricity in a carbon constrained economy

#### FEATURING:

- >> Expert panels in technology and policy discussing strategies that allow for continued growth in demand for electricity while minimizing the growth's potential climatic impact
- >> Facilitated session of the Princeton Wedge Game designed to highlight the challenges and realities of cutting carbon emissions using available technologies
