Room 7 LIBRARY

ISU Pocatello Campus

1:00 – 1:50 p.m.

Abstract:

This overview describes applicable law, University policy and practice related to managing rights in University-originated innovations. Presented matters include patents, technology transfer, conflict of interests, confidentiality, trademarks, copyrights, material transfer agreements, commercial transactions, ownership, consultant rights, and invention disclosure.

This presentation is designed for any interested members of the University community, including research personnel, academic administrators, and research administrators.
